

URGENT WARNING : 2021 Vision-Hearing-Thought-Action

We're giving you this short missive because it is urgent. Just read it for your own benefit. Your life and your family's life could depend on this if you do not already know.

There is in fast progress a group of foreign powers moving quickly to change society and our economy into conditions we have never experienced in history. Canada is a choice piece for robber-barons using the pandemic to control all peoples and all resources at your loss and their enrichment.

This is not a theory but a conspiracy on a grand scale. It's global.

They have recently "come out of the closet," announcing their "Great Reset." There is nothing great about it.

Among the most sinister tenets of their plans are:

1. End of ownership of property—homes, cars, appliances, furnishings, boats... They want to own all and rent to you. How will they do this? By forcing you to agree to be debt free by releasing your property. Your mortgage is paid? Your car is paid? Nope. They have indebted all Canadians by spending in your name. You are collateral.
2. They want to control your movement—that's why drones will deliver your home.
3. You will be forced to share a ride with strangers since by 2030 no one will own a car. Heard rumblings about this?
4. Your food will be made not grown, not natural. Imagine what this will do to your health. Oh! And meat will be a rare luxury.
5. Integrating you with the cloud in AI (artificial intelligence) is their aim. Feel like a conduit? Yes indeed. Helped by 5G, 6G...
6. And they aim to end Christianity. There is so much more...

The pandemic was long planned to control you and obtain your compliance. The virus has never been isolated which means it has never been seen or identified. But the fear it generated was useful. The PCR tests they use to raise the number of cases are 100% false. Its inventor, Kary Mullis, said it should not be used for infectious diseases. The lies are endless to justify your loss of rights and freedoms.

DON'T FEEL HELPLESS. JUST SEARCH AND LEARN. ACT. WE CAN WIN!
